AMENDMENT TO A CONTRACT BETWEEN  
THE SPRINGFIELD SANITARY DISTRICT  
AND THE VILLAGE OF CHATHAM, ILLINOIS

IT IS HEREBY AGREED on this 1 day of Sept, 1980, by and between the Springfield Sanitary District, hereinafter called "District" and the Village of Chatham, Illinois hereinafter called "Chatham," that Paragraphs 5, 6 and 9 of the original Contract between said District and Chatham dated the 13th day of April, 1976 be amended to read as follows:

5. The District will maintain and keep in effect a sewer service charge at a level no lower than the following schedule of rates and charges, based upon the quantity of water used as measured by the water meters (or in accordance with uniform adjustment provisions of the rate ordinances of the District and the Village) on each lot, parcel of land, building or premises having any sewer connection, which schedule has heretofore been adopted by said District:

Base User Charge

Suburban Springfield Base User Charge	= \$0.30 per 100 cu.ft.
Plus Service Charge	= \$1.00 per month

Each meter shall be considered a separate billing unit in applying the above charges and rates. The District's rates and charges shall, however, be abated within the corporate limits of the Village during the term of this Contract.

6. The Water Department of the Village will, as agent for the District, bill all District water and sewer users outside the Village who are served by the Water Department of the Village and from whom no other municipality is collecting sewer charges under contract with the District, at the rates and under the terms and conditions set by the District and will undertake the collection of the District's charges from such users. It will pay over monthly to the District all amounts so collected, less \$0.25 per bill, to be retained by said Department to cover the cost of billing and collecting such charges. Upon written notice by either party to the other at least ninety (90) days before the expiration of any year of collection of sewer service charges under this contract,

said charge for collection may be reviewed in the light of the actual expenses incurred by the Department, in such service to the District; and if an adjustment cannot be agreed upon, the Department shall, from the beginning of the next year of operation, make available to the District, the water meter readings on sewer users outside the Village from whom no other municipality is collecting sewer charges under contract with the District, and may furnish any part of the billing or collecting service for the District for which compensation to it may be agreed upon, but shall no longer be required to bill and undertake to collect the sewer service charges of the District as its agent.

9. The "District Sewer Contract Charge" as set forth in Paragraph 8 hereof and imposed by the Village on inhabitants of the Village shall be:

District Sewer Contract Charge = 0.1738 per 1000 gallons of billable flow

Plus Service Charge = \$1.00 per month

The above rates shall be imposed on inhabitants of the Village in addition to any amounts imposed as the Village Sewer Charge as set forth in Paragraph 7 hereof. The Village shall at the end of each month make payment to the District of that amount accumulated in the "District Sewer Contract Fund."

In no event shall Village customers be charged at any time for the "District Sewer Contract Charge" a rate higher than that charged to customers within the city limits of Springfield.
